Institut et Observatoire de physique du globe, PUY DE DÔME (Puy-de-Dôme). (1926). — **E. Mathias**, Directeur; **C. Jacquet**, Météorologiste; **F. Maisonnnet**, Aide-Météorologiste; **J. Plazanet**, Assistant. — Cet établissement rattaché à l'Université de Clermont comprend deux stations où se poursuivent des observations continues, l'une à la côte de Landais, près de Clermont, à 400 mètres d'altitude; l'autre au sommet du Puy de Dôme à 1.465 mètres d'altitude. A la Station de la Montagne, ont été installés deux parcs extérieurs, une salle d'instruments et un Laboratoire dans la maison d'habitation ainsi qu'un bureau télégraphique et téléphonique. Des savants, désireux de poursuivre des études spéciales, peuvent être autorisés à y séjourner. De mai à octobre, un trainway à vapeur reliait autrefois Clermont au sommet du Puy de Dôme; il sera remplacé en 1926, par une route praticable aux automobiles. La Station de la Plaine est spécialement installée pour les recherches scientifiques. Elle a un parc d'instruments, un sismographe Bosch-Mainka, deux installations de T. S. F. dont une à cadre, un Laboratoire de physique, un Laboratoire de chimie, une chambre noire de grandes dimensions pour la photographie et une bibliothèque. Des installations d'électricité atmosphérique sont en voie d'organisation aux deux Stations. Celles-ci sont reliées par le téléphone.

Colonies

Institut Pasteur d'Algérie (arrêt du tramway « Les Platanes »), **ALGER** (1926). Fondé en 1910. — Comprend un établissement principal urbain (plus d'un hectare), au Jardin d'Essai d'Alger, une annexe rurale (5 hect.) à Kouba (banlieue d'Alger), et une annexe pour le traitement antirabique au centre de la ville. L'Institut Pasteur d'Algérie comprend des laboratoires de recherches et des services pratiques : 1° *Laboratoires de recherches*. Objet : étude des maladies virulentes et contagieuses de l'homme, des animaux et des plantes, intéressant l'Algérie et les pays de l'Afrique du Nord; études scientifiques se rapportant aux recherches microbiennes. — 2° *Laboratoires assurant des services pratiques d'utilité publique*. Analyses microbiologiques, traitement préventif antirabique, direction technique du Service antipaludique de l'Algérie, préparation et délivrance des sérums thérapeutiques, vaccins, ferments et produits biologiques préparés par l'Institut Pasteur de Paris, missions d'études ou d'enquêtes, enseignement des méthodes microbiologiques. — **Ed. Sergent**, Directeur. — *Microbie médicale* : **M. Béguet**, **L. Parrot**, Chefs de laboratoire; **H. Rougebief** assistante. — *Rage* : **E. Murat**, Chef de service. — *Paludisme* : **Et. Sergent**, Chef de service; **A. Catanéi**, Chef de laboratoire. — *Laboratoires sahariens* : **H. Foley**, Chef de service. — *Parasitologie* : **G. Sevenet**, Chef de laboratoire. — *Laboratoire vétérinaire* : **A. Donatien**, chef de laboratoire; **F. Lestoquard**, Chef de laboratoire. — *Fermentations et Chimie* : **L. Musso**, chef de laboratoire.

Service botanique de l'Algérie, ALGER (1926). — **L. Trabut**, Directeur. — *Phytopathologie* : **R. Maire** (Laboratoire à la Faculté des Sciences); *Entomologie* : **P. de Peyerimhoff** (Laboratoire à la station de Recherches forestières). *Défense des cultures* : **G. Delassus**, professeur d'entomologie à l'Institut agricole; *Viticulture* : **W. Vivet**, Professeur à l'Institut agricole de Viticulture et Assistant; *Céréales et grande culture* : **W. Ducellier**, Professeur à l'Institut agricole, Assistant; *Horticulture* : **W. Perronne**, Chef de la Station botanique, Professeur d'Horticulture à l'Institut agricole.

Stations expérimentales sous la direction scientifique du Service Botanique : **Station botanique, MAISON CARREE** (Alger). — **Jardins d'Essais du Hamma** : **W. Castet**, Jardinier en Chef, **ALGER**. — **Station Ampélographique** : **W. Escoffier**, Chef de station, **MONDOVI**, Ferme expérimentale à Orléansville, **W. Gibier**, chef de station. — **Ferme Blanche** : **W. Fournié**, Chef de station, **PERREGAUX** (Dép. d'Oran). — **Ferme Bertaux** (Dép. de Constantine). — **Station expérimentale de cultures sahariennes, EL ARFLANE**, par Biskra : **W. Gigonzag**, chef de station. — *Publications* : *Bulletin des Informations agricoles*.

Service Météorologique de l'Algérie, Université, ALGER (1926). — Directeur : **A. Lisserre**; météorologistes-adjoints : **J. Loiset**, **L. Petitjean**.

Laboratoire d'Océanographie appliqué à l'industrie des Pêches, ANNAM CAODA (1926). — Fondé en 1924. — **W. Krempf**, Directeur. — A pour but d'étudier la faune générale des mers indo-chinoises et de faire toutes les recherches océanographiques nécessaires. — Le laboratoire à terre est

doublé d'un bâtiment océanographique le « de Lanessan », chalutier de 500 tonnes, ayant à bord tous les instruments de recherches nécessaires.

Institut Pasteur, BRAZZAVILLE (Congo) (1924). — Fondé avec le concours de la Société de Géographie, de la Colonie et de l'Institut Pasteur de Paris. — S'occupe des maladies tropicales, particulièrement de la maladie du sommeil.

Institut Pasteur de l'Afrique occidentale Française, DAKAR (Sénégal) (1926). — D'abord Laboratoire de Bactériologie du Sénégal, puis Institut de Biologie de l'A. O. F., a été rattaché à l'Institut Pasteur de Paris en 1924. — 4 sections : 1. Microbiologie humaine; 2. Microbiologie vétérinaire; 3. Chimie biologique; 4. Chimie agronomique. Directeur : **C. Mathis**. — Médecin adjoint : **R. Guillet**. — Chimistes : **A. Boulay**; Vétérinaire : **L. Hanras**.

Muséum océanographique de N. Conseil, 19, rue de la République, **FORT DE FRANCE** (Martinique) (1926). — Fondé en 1925. — **W. Conseil**, Directeur. — A pour but d'étudier la faune générale martiniquaise et les recherches océanographiques. Va disposer d'un bateau à moteur et appareils divers d'océanographie.

Institut Pasteur d'Hanoï, HANOI (Tonkin) (1926). — **J. Bablet**, Sous-Directeur; **A. Mensard**, (Microbiologie humaine); **A. Polidori** (Vaccine jennérienne).

Institut scientifique de l'Indochine, HANOI (Tonkin) (1926). — Directeur : **M. le Gouverneur de la Cochinchine**, chargé de la direction; Chef du Secrétariat : **J. Bathellier**.

Service océanographique des Pêches de l'Indochine, HANOI (Tonkin) (1926). — Directeur : **A. Krempf**.

Institut Pasteur de Kindia, KINDIA (Guinée française) (1925). — Fondé par l'Institut Pasteur de Paris. Créé tout spécialement pour l'étude expérimentale sur les grands singes des maladies humaines; organisation non encore achevée. — Directeur-administrateur : **R. Wilbert**.

Institut Pasteur de Nhatrang, NAHTRANG (Annam) (1926). — Fondé en 1894 par **A. Yersin**. — Spécialement orienté dans l'étude de la microbiologie animale. — **A** : Services pratiques : 1^o préparation du sérum antiseptique et des vaccins vétérinaires pour l'Indochine; 2^o Enseignement vétérinaire théorique et pratique au personnel européen et indigène du Service des épizooties de l'Indochine. — **B** : Laboratoire de recherches (étude des maladies virulentes et contagieuses des animaux). — **C** : Stations de biologie végétale à Suoi Giao, Hon Ba, Dran et Djiring. — **A. Yersin**, Inspecteur; **N. Bernard**, Directeur; **H. Jacotot**, Sous-Directeur. (Service des sérums et vaccins); **H. Schein** (microbiologie animale).

Institut scientifique chérifien, avenue Moulay Youssef, **RABAT** (Maroc) (1926). — Dir. : **J. Liouville**. — Publie : *Archives scientifiques du protectorat français*, publiées par les soins de la Société des sciences naturelles du Maroc.

Institut Pasteur, SAIGON, Cochinchine (1926). — Fondé en 1892 par le Dr **A. Calmette**. — Les Instituts Pasteur d'Indochine comprennent 2 établissements (Saïgon, (Cochinchine), Hanoï (Tonkin) et Nhatrang (Annam)) qui se partent : 1^o des laboratoires assurant des services pratiques d'in-

térêt public; 2° des laboratoires de recherches. — *a*) Services pratiques : 1° *Microbiologie humaine* (service antirabique, vaccin jennérien, vaccins microbiens, microbiologie clinique, entomologie médicale, hygiène générale, hygiène sociale (étude et prophylaxie de la tuberculose, paludisme, maladies endémiques); 2° *Microbiologie animale* (épizooties, analyses microbiologiques); 3° *Chimie* (chimie biologique, répression des fraudes alimentaires, contrôle des eaux, physico-chimie, études et essais des caoutchoucs). — *d*) Laboratoires des Recherches (études des maladies virulentes et contagieuses de l'homme et des animaux). — Inspecteur général des Instituts Pasteur d'Indochine : **A. Yersin** (Nhatrang); Directeur des Instituts Pasteur d'Indochine : **P. N. Bernard**; **F. H. Guérin**, sous-directeur; **A. Souchard** (vaccins), **R. Pons**, **H. Morin** (Microbiologie humaine), **E. Bore** (Entomologie médicale), **E. Broudin**, (Microbiologie animale); **A. Lambert** (Caoutchouc, Physico-Chimie); Directeur de l'Institut Pasteur de Saïgon : **J. Guillermin**; **E. Bouffard** (Chimie biologique et des fraudes).

Station océanographique de Salammbô, SALAMMBO près Carthage (Tunisie). — Fondé en 1924. — Directeurs : **W. Heldt**; Assistante : Mme **W. Heldt**. — Comprend un laboratoire, un musée, un aquarium. — Publie : le *Bulletin de la station océanographique de Salammbô* et les *Annales de la Société océanographique de Salammbô*.

Institut Pasteur, place Pasteur, TANGER (1924). — **P. Remlinger** Directeur; **P. Bel**, Chef du service vétérinaire; **Si Mohamed, Si Mohamed Chéïf**, Préparateurs. — *Principaux travaux* : Services antirabique, de vaccination, antivariolique, Analyses bactériologiques et chimiques. Consultation gratuite pour les maladies des animaux. Prospection médicale et vétérinaire du Maroc. Vaccination contre les principales maladies infectieuses. Prophylaxie des maladies infectieuses, etc... — Il existe, à Tanger, une « *Mission scientifique* » destinée à l'étude des questions musulmanes. Cette mission a une fort belle bibliothèque (**M. Michaux-Bellaire**, Directeur). Filiale de l'Institut Pasteur de Paris.

Institut Pasteur, place Pasteur, TUNIS (1926). — Fondé en 1893. — Comprend les services suivants : Service antirabique; Centre vaccinogène; Service de préparation du sérum antidiphthérique et des vaccins microbiens; Laboratoire de Chimie médicale et biologique; Laboratoire de vinification; Service des analyses bactériologiques, médicales et biologiques; Recherches scientifiques. Missions. L'Institut Pasteur reçoit des travailleurs libres. — Publication d'un périodique : les *Archives de l'Institut Pasteur de Tunis*, fondées en 1906. — Bibliothèque. — **Ch. Nicolle**, Directeur, Correspondant de l'Académie des Sciences, Membre associé de l'Académie de Médecine; **Et. Burnet**, sous-Directeur; **J. Bance**, **Ch. Anderson**, **P. Durand**, Chefs de laboratoire; **G. Catouillard**, Chef de laboratoire adjoint; Mlle **M. Huert**, **R. Lafond**, **H. Rouxel**, **C. Disdier**, Préparateurs. — Budget : (1925) ca. 600.000 fr.

Service Botanique de la Direction Générale de l'Agriculture, Ariana, près TUNIS (1926). — Fondé en 1913 par fusion du Jardin d'essais (1892) et de la Station expérimentale agricole de l'Ecole coloniale d'Agriculture. — Ouvert gratuitement au public. — **F. Bœuf**, Directeur; **L. Guillochon**, **A. Géry**, **A. Petit**, **V. Amiable**, **G. Lenoble**, Assistants; **M. Chevillon**, Chef de culture. — Mlle **A. Guelfi**, Econome. — *Objet* : amélioration des plantes cultivées en Tunisie; travaux de recherches concernant la sélection, l'hybridation l'acclimatement des végétaux, la météorologie agricole, les relations des plantes avec le milieu. The publications of the Foundation are distributed without charge. — President: **H. S. Pritchett**; Treasurer: **R. A. Franks**; Secretary: **C. Furst**.

New York Botanical Garden, Bronx Park, **NEW YORK CITY** (1925). — **N. L. Britton**, Director-in-Chief; **M. A. Howe**, Assistant Director; **J. K. Small**, Head Curator of the Museums. — Grounds, open free to public always. Conservatories and Museum, open free daily, 10 a.m. 4.30 p. m. (winter) or 10 a. m.-5 p. m. (summer). — Area : 400 acres, with natural forest and extensive plantations. — Large conservatories. Over 14.000 species of plants in cultivation. Museum of economic botany, systematic botany, and fossil plants. Herbarium contains over 1.500.000 specimens. — Library of 34.000 volumes. — *Publications* : *Journal* (monthly); *Mycologia* (bimonthly); *Addisonia* (quarterly); *Bulletin*; *Memoirs*; *Contributions*; *North American Flora*.

New-York Meteorological Observatory, **NEW YORK CITY** (1926). (Founded 1869). — Meteorologists : **J. H. Scarr**, Director; **D. R. Morris**, in charge.

New York Zoological Park, 185 th. Street and Southern Boulevard, **NEW YORK CITY** (1925). — **W. Reid Blair**, Director. — Founded in 1895 by the New York Zoological Society, a scientific corporation having for its objects the maintaining of « a public Zoological Park, the preservation of native wild animals and the promotion of Zoology », embraces 264 acres. Open free to the public on all days of the week except Mondays and Thursdays, and admission also is free on all legal holidays. Its collections include all classes of mammals, birds and reptiles, representing every continent; 3.061 specimens, representing 1.080 species of mammals, birds and reptiles; the membership of the New-York Zoological Society was 2.861 (on janv. 1 st., 1926).

Psychiatric Institute of the New York State Hospitals Ward's Island, **NEW YORK** (N. Y.) (1926). — **G. H. Kirby**, Director. — Teaching and research in clinical psychiatry, neuro-pathology and allied subjects, including serology, bacteriology and internal medicine. — Reports and special studies published.

The American Museum of Natural History, 77 th. street and Central Park West, **NEW YORK CITY** (1926). (Founded 1869). — Open free every day in the year : week-days from 9 a. m.-5 p. m., Sundays, 1-5 p. m. — Acting Director and Executive Secretary : **G. H. Sherwood**; Curator : **I. Division of Mineralogy, Geology and Geography** : **W. D. Matthew**; Astronomy : **G. Clyde Fisher**, in charge; Geology and invertebrate Palaeontology : **W. D. Matthew**, in charge; Mineralogy : **H. P. Whitlock**; Vertebrate Palaeontology : **W. D. Matthew**. — **II. Division of Zoology and Zoogeography** : **F. M. Chapman**; Lower invertebrates : **R. W. Miner**; Entomology : **F. E. Lutz**; Ichthyology : **W. K. Gregory**; Herpetology : **G. K. Noble**; Ornithology : **F. M. Chapman**; Mammalogy : **H. E. Anthony**; Comparative and Human Anatomy : **W. K. Gregory**. — **III. Division of Anthropology** : **O. Wissler**. — **IV. Division of Asiatic Exploration and Research** : **R. C. Andrews**. — **V. Division of Education and Publication** : **G. H. Sherwood**; Library and Publications : **Ida R. Hood**, Acting; Education and Public Health : **G. H. Sherwood**. — *General Collections*. — Illustrating the Life of the Land and Sea from all regions of the Earth; Birds, Fishes, Mammals, Insects, Reptiles, Woods of North America, Primitive Races of Men and their Arts; maintains a Free Public Reference Library, and during the season Octob.-May, provides various public evening lectures on Science and Travel. — *Collections* : Morgan Coll. of Gems and Gem Materials; the Jesup Coll. of North American Woods; Habitat Groups of Birds; Meteorites; Sledges used by Rear Admiral Peary and Captain Amundsen on their trips to the North and South Poles respectively; Evolution of the Horse; Animals of the World, both past and present, including long extinct Giant Reptiles; life and industries of the native races of the South Sea Islands, Philippine Islands, Asia, Africa, Mexico and South America, and especially the Esquimo and Indians of North America. — More than 9.000 members are now contributing to explorations in America and other parts of the world. — *Library*: 100.000 vol-

lumes, many of which are monographs of extreme interest and rarity. — *Publications* : *Memoirs* (1839-XXV; n. s. I-III); *Bulletin* (1881-I-LII), *Anthropological Papers* (1906, I-XXVII); *Natural History Journal*, 1900, I-XXV; *Novitates* (1921-1-222).

The Rockefeller Institute for Medical Research, NEW YORK CITY (Founded 1901, J. D. Rockefeller). (1926). — *Objects* : to conduct, assist, and encourage investigations in the sciences and arts of hygiene, medicine and surgery, and allied subjects, for the protection of the health of the public, and the improved treatment of disease and injury. — *Director of Research and of the Laboratories* : S. Flexner; *Director of the Hospital* : R. Cole; *Director of the Department of Animal Pathology* : T. Smith. — *Library* : ca. 15,000 vols. — *Publications* : *Journal of Experimental Medicine*; *Journal of General Physiology*; *Studies from The Rockefeller Institute for Medical Research and Monographs of the Rockefeller Institute for Medical Research*.

U. S. Weather Bureau, NEW YORK CITY (1925) (Founded 1871). — J. H. Scarr, Meteorologist in charge.

Oklahoma Geological Survey, NORMAN (Okla.) (1926). — Chas. N. Gould, Director. Department organized in 1908. — *Publications* : *Bulletins* (40); *Circulars* (12), and numerous maps and charts. Lists of publications and information on resources of State furnished on application.

University of Oklahoma. Museum of Zoology, NORMAN (Okla.). (1925). — A. Richards, Director; A. I. Ortenburger, Curator of Vertebrates.

Hopkins Marine Station of Stanford University (formerly Hopkins Seaside Laboratory), *PACIFIC GROVE* (Monterey Bay, Cal. (1926). (Founded 1891). — *Director* : W. K. Fisher. — Laboratory open all the year, gratuitously, for biological investigations. Instruction from March to August, Salt and fresh water aquaria available; microscopes and principal reagents. — *Library and collections of marine animals*. — *Publication* : *Contributions from the Hopkins Seaside Laboratory* (discontinued).

Academy of Natural Sciences Museum, Logan Square, PHILADELPHIA (Penna.). (1925). — *Director* : W. Stone. — Large Collection in all branches of Zoology (Birds 70,000, Reptiles 10,000, Mamm. 10,000, Insects 1,000,000, Fishes 25,000, Mollusks 800,000), Botany (ca. 1,000,000 sheets), Geology, Archeology, etc. Local Coll. in all branches.

Museum of Human and Comparative Anatomy (The Institute is devoted to researches in Neurology, Embryology and Genetics), *PHILADELPHIA* (Penna.). (1925).

Philadelphia Zoological Garden, 34 th. St. and Girard Av., PHILADELPHIA (Penna.) (1926). — *Director* : C. Emerson Brown. — 40 acres; 3,000 specimens (Birds, Mammals, Reptiles).

The Drexel Institute of Art, Science and Industry, PHILADELPHIA (Penna.) (1926). — (Founded 1892, A. J. Drexel). Collegiate courses in Engineering, Home Economics, Library Science, Secretarial Studies, Business Administration; co-educational; Day course of best collegiate standards; Evening School, industrial, with 24 specialized courses. Industrial School for men and women. — The Museum of the Institute contains collections of

furniture, ceramics, wood-carvings, ivories, prints, engravings, metal-work, embroideries, and textiles, many of great rarity and all of much interest and value. — Picture Gallery. — Library : ca. 40.000 vols.

The Franklin Institute of the State of Pennsylvania, 15, South Seventh Street, **PHILADELPHIA** (Penna.) (1926). (Founded 1824). — Promotion of the Mechanic Arts. — President : **W. C. L. Eglin**; Secretary : **H. McClenahan**. — Weekly lectures on scientific and technical subjects; monthly meetings at which recent discoveries are discussed; reports upon all new and useful machines, inventions and discoveries submitted of it. — Publications : *The Journal of the Franklin Institute*, now in its 22.183 year. — Library : 83.927 volumes; 101 st. pamphlets; 2.298 maps and chart and 1.356 photographs. Librarian : **A. Rigling**.

The University Museum, PHILADELPHIA, Penna. (1926) (Founded 1888). — Open weekdays 10 to 5; Sundays 2 to 6 free. — **G. B. Gordon**, Director. — For the collection and preservation of archeological and ethnological exhibits and ancient works of art. Excavations in Egypt, Palestine and Mesopotamia. — Sections : Egyptian, Babylonian, Greco-Roman, The Far East, The Middle East, General Ethnology, American Archeology and Ethnology. — Free to the public. — Quarterly publication : *The Museum Journal*.

Wistar Institute of Anatomy and Biology, PHILADELPHIA (Penna.). (1925). — Founded 1808. — Materials and equipment for the more advanced study of anatomy and for the prosecution of researches in anatomy and other biological subjects. — Board of nine Managers elected annually by the Trustees of the University of Pennsylvania. — **E. B. Morris**, President; **M. J. Greenman**, Secretary, **M. J. Greenman**, Director. — Museum of human and comparative anatomy intended especially for teachers and students. Large collection of prehistoric North and South American Indian skulls, of different ages, modern Esquimaux skulls of different ages, human brains, embryological collection. — Research of the Institute chiefly in the fields of neurology, embryology, genetics, biochemistry, biophysics, Large colony of albino rats is maintained for research purposes. — Publications : *The Bulletin of the Wistar Institute*; *Journal of Morphology and Physiology*; *The Journal of Comparative Neurology*; *The American Journal of Anatomy*; *The Anatomical Record*; *The Journal of Experimental Zoology*; *American Anatomical Memoirs*; *Bibliographic Service*. Maintains a complete press for printing and publishing biological research : *American Journal of Physical Anthropology*.

Carnegie Museum (Department of the Carnegie Institute), Schenley Park, **PITTSBURGH**, Penna. (1926) (Founded 1895). — **A. Avinoff**, Director. — Natural history, Archeological, Ethnological and Decorative Art specimens. The most notable collections are those illustrating the vertebrate paleontology of North America. The Museum contains one of the most important collections of *Fossil Sauropod Dinosaurs* in the world, a very large entomological collection, about 100.000 specimens of birds, chiefly from North and South America, the Frick collection of African mammals, a very important botanical collection, one of the most important collections of South America fishes in existence, and a beautiful collection illustrating the arts and crafts of the American Indian.

Mellon Institute of Industrial Research of the University of Pittsburgh, Thackeray and O'Hara Streets, **PITTSBURGH**, Penna. (1926) (Founded 1913, A. W. Mellon and R. B. Mellon). — **E. R. Weidlein**, Director. — Essential aim : the Creation of new knowledge by scientific investigation, in accordance with the Industrial Fellowship System of R. K. Duncan (1868-1914). There are 58 Industrial Fellowships in operation (August 1, 1926), the purpose of which is to find new materials, new processes and new uses of products, for industrial development, and to advance manufacturing operations through the application of scientific methods to industry.

Park Museum, Roger Williams Park PROVIDENCE Rhode Island (1925) (Founded 1894). — **W. L. Bryant**, Director. — **D** : week days 10 a. m. to 5 p. m.; Sundays 2 to 5 p. m. — **K** : Mineralogy, Geology, Paleontology, Ethnology, Botanic, Philatelic. — **L** : Mineralogy, Geology, Paleontology, Zoology, Botanic. — **M** : Manly-Hardy collection of North American Birds considered one of the finest; a complete collection of R. I. birds (with the exception of 2 or 3 species).

The Lake Laboratory of Ohio State University, PUT-IN-BAY (Ohio). (1925). (Founded 1895). — Situated on Gibraltar Island, Lake Erie. — Open for research June 20 to Sept. 1. Instruction given June 20 to July 31. — Director : **R. C. Osburn**. — Equipment. — Residence and laboratory buildings; gasoline launch; rowboats; aquaria; collecting nests, etc.; all necessary laboratory instruments, apparatus, etc. — Library of standard books, government bulletins, authors reprints.

Geological Museum of South Dakota, State School of Mines, RAPID CITY (South Dakota). (1925) (Founded 1885). — **D** : 8 a. m. to 5 p. m. daily except Sunday. — **Ka, Kb** : display collections and study collections. — **La, Lb** : Large collection from the *Black Hills* and surround country including the *White River Badlands*.

The Missouri Bureau of Geology and Mines, ROLLA (Missouri). (1926). — State Bureau : **H. A. Buehler**, Director. — Reports on Geology and Economic mineral resources of Missouri. — Library : 5,000 vols; museum : 2,000 specimens.

Missouri Botanical Garden, SAINT-LOUIS (Mo.) (1926). — Director : **G. T. Moore**. — Issues *Monthly Bulletin and Quarterly Scientific Annals*. Maintains graduate laboratories for Shaw School of Botany, Washington University; also conducts school for gardeners. — Herbarium 991,241 sheets. Library : 91,478 vols.

Museum of the California Academy of Sciences, Golden Gate Park, SAN FRANCISCO, Cal. (1926). (Founded 1853, L. W. Sloat). — **H. B. W. Evermann**, Director. — **K** : Botany, Entomology, Exhibits, Herpetology, Ichthyology, Invertebrate Paleontology, Invertebrate Zoology, Mammalogy and Ornithology.

The Edward L. Trudeau Foundation, SARANAC LAKE N. Y. 1925. (Founded 1916). — **E. R. Baldwin**, Director. — Objects : to maintain laboratories and carry on research into the nature, causes and treatment of tuberculosis; to maintain regular courses of instruction for physicians and others in the most advanced knowledge of tuberculosis under the name of the *Trudeau School of Tuberculosis*; to offer young physicians and others the opportunities for research work while undergoing treatment for tuberculosis, through the establishment of *fellowships*. — Endowment fund : \$ 425,000.

Natural History Museum, Union University, SCHENECTADY (N. Y.), (1924). — (Founded 1845). — Monday to Friday, 2-4 p. m. — **J. H. Stoller**, Curator. — Mineralogy, 4,000 sp. — Paleontology, 1,000 sp. — Ornithology, 300 sp. — Conchyliology, 3,000 sp. — Invertebrates, 2,000 sp.

Magnetic Observatory and Seismological Station, SITKA (Alaska). (1925). (Founded 1902). — Magnetograph, Eschenhagen; Seismograph, Bosch-Omori. — **F. P. Ulrich**, observer in charge. — The Observatory is maintained by U. S. Coast and Geodetic Survey.

Illinois State Museum, SPRINGFIELD (Ill.) (1926). (Founded 1877). — **D:** Monday to Saturday inclusive, 8 a. m. till 5 p. m. — **H:** A. R. Crook, Chief. — Paleontology 60,000 sp., Conchvliology 10,000 sp., Ornithology 3,000 sp.; Mammals 500 sp.; Archeology 3,000 sp., Mineralogy 10,000 sp., Miscellaneous, 5,000 sp.

Food Research Institute, STANFORD UNIVERSITY Cal. (1926). (Founded 1921, Carnegie Corporation). — Directors : C. L. Alsberg, J. S. Davis, A. E. Taylor. — *Object* : to investigate significant problems of food production, distribution and consumption from the standpoint of their bearing upon national economy and well-being. — *Publications* : Bulletins embodying the results of research work and articles in technical periodicals.

Public Museum, STATEN ISLAND (N. Y.). (1926). — (Founded 1907). — **D:** 10 a. m. to 5 p. m. daily; 2 to 5 p. m. Sunday. — **H:** C. W. Leng, Director — **Ka:** Ores of Metals. — **Kc:** Shells, Butterflies, Birds, Beetles, etc. — **L:** Geology of Staten Island. — **Lc:** Zoology of Staten Island. — **Ld:** Herbarium of Staten Island. — **N:** Staten Island Indian and Historical Relics

Roosevelt Wild Life Forest Experiment Station, The New-York State College of Forestry, SYRACUSE, N. Y. (1926) (Founded 1919). — Director: C. E. Johnson, acting. — Investigates wild life problems as related to forestry including fish, game, furbearing animals and other aspects of the relation of animals to forests. Investigations have been made largely in New-York State, but special gifts have permitted investigations in the Yellowstone National Park. Is building up a special wild life library. — *Publications* : *Roosevelt Wild Life Bulletin*; *Roosevelt Wild Life Annals*. — Exchanges are solicited; address all communications to the Director, to the above given address.

New Jersey State Museum, State House, TRENTON, N. J. (1926). (Founded 1894). — **D:** daily, except Sundays, 9 a. m. to 5 p. m.; Saturday, 9 a. m. to 12 noon. — **H:** Mrs. K. B. Greywaez, Director. — **L:** Minerals, rocks, animals, birds, fish, reptiles, plants, and leading manufactures. — Special exhibits on subjects of general interest are held from time to time. The Museum works in close affiliation with the schools of the State by lending various collections : Lantern Slides, Motion Picture Films, Stereographs, Stereoscopes, Natural History cases, Industrial Process Charts, Mounted Pictures and Photographs, Charts on Hygiene and Agriculture.

Laboratory for Plant Physiology of the Carnegie Institution of Washington TUCSON (Ariz.) (1926). — D. T. MacDougal, Director. — Desert Laboratory.

Seismological Station and Magnetic Observatory, about 13 ki. east of the city of TUCSON (Ariz.), (1926). (Founded 1909). — Eschenhagen Magnetograph; Wood-Anderson seismograph.

Geological Survey of Alabama, Smith Hall, UNIVERSITY P. O. (Alabama). (1925). — E. A. Smith, Director; Miss A. T. Donoho, Secretary. — *Publications* : Administrative Reports; Reports of Progress; Special Reports; Monographs; Bulletins; Circulars; Leaflets; Maps; Museum papers.

Agricultural Experiment Station URBANA (Illinois), (1926). (Founded 1887). — H. W. Mumford Director. — Departments : Agronomy (soils and

crops); Animal Husbandry; Dairy; Farm Mechanics; Horticulture; Farm Organization and Management. — *Publications*: *Bulletins* 1 (1888) to 280 (1926); *Circulars*, 1 (1897) to 311 (1926); County Soil Reports 1 (1911) to 32 (1926).

Engineering Experiment Station of the University of Illinois, URBANA Ill. (1926). (Founded 1903). — **M. S. Ketchum**, Director. — All members of the teaching staff of the College are encouraged to engage in scientific research either directly or in cooperation with the research corps, which consists of 21 full-time investigators, 6 part time assistants, and 14 research graduate assistants, who devoted half of their time to research work, and 11 special investigators. — *Publications*: 160 bulletins and 14 circulars.

Illinois State Natural History Survey (1925) a division of the State Department of Registration and Education, URBANA (Illinois) (1925). (Founded 1917). Formerly Illinois State Entomologist's office and Illinois State Laboratory of Natural History. — Chief: **S. A. Forbes**. — Maintains field biological station on the Illinois River at Peoria (Ill.), and field stations in entomology at Carbondale, Jacksonville and Aurora and Rock River at Sterling (Ill.). — *Collections*: Mainly of the animals and plants of the State of Illinois. — *Library*: 11,281 vol., 58,000 pamphlets. — *Publications*: *Reports on the zoology of Illinois* (3 vols. 1889 and 1908); *Reports of the Illinois State Entomologist* (29 vols. 1868-1917); *Bulletins of the Illinois State Laboratory of Natural History and the State Natural History Survey* (15 vols. 1876-1924).

Illinois State Water Survey Division, 57, Chemistry Building, University of Illinois, URBANA (Ill.) (1926) (Founded 1895). — Chief: **A. M. Buswell**. — *Activities*: Sanitary and Mineral Water Analyses, investigation of water resources, problems of water purification, and methods of sewage disposal. — *Publications*: *Illinois State Water Survey Bulletins reporting studies on water resources and sewage treatment*.

State Geological Survey Division of the Department of Registration and Education of the State of Illinois, 305 Ceramics Bldg., University of Illinois, URBANA (Ill.) (1926). (Founded 1905). — **M. M. Leighton**, Chief. — *Publications*: *State Geological Survey Bulletins and Illinois Mining Investigations Bulletins*: Geologic, topographic, drainage and base maps.

Magnetic Observatory and Seismological Station of the United States Coast and Geodetic Survey, VIEQUES (Porto-Rico) (1926). (Founded 1903). Magnetograph Eschenhagen; Bosch-Omori seismograph. — Observer in charge: **R. R. Bodle**. — The Observatory is maintained by the U. S. Coast and Geodetic Survey.

Bureau of Fisheries, Department of Commerce, WASHINGTON (D. C.) (1926). (Founded 1871). Commissioner: **H. O'Malley**; Deputy Commissioner: **L. Radcliffe**. — *Laboratories*: WASHINGTON (D.C.); WOODSHOLE (Mass.); BEAUFORT (N.C.); KEY WEST (Fla.); FAIRPORT (Iowa). — *Fish-cultural stations*: ca. 40 main hatcheries in 32 States and numerous subhatcheries. — *Publications*: *Bulletin of the Bureau of Fisheries* (annual from 1880 to date); *Report of the Commissioner*, with appendices (annual from 1871 to date); *Fisheries Service Bulletin* (monthly, from June, 1915, to date); *Statistical Bulletins*, showing extent of special fisheries.

Bureau of Labor Statistics, WASHINGTON (D. C.) (1926). — Commissioner: **E. Stewart**.

Bureau of Mines, WASHINGTON, D. C. (1926) (Founded 1910). — Director : **S. Turner**. — Conducts investigations with a view to improving health and safety in the mineral industry and to increasing efficiency in the development and utilisation of mineral resources. Collects statistics regarding mineral production and consumption, and studies economic problems in the mineral industries. It tests fuels purchased for the Government, and serves in general as the agent of the latter in technical matters relating to mines. It cooperates with the War Department, Navy Department, the Department of Agriculture, the Department of Interior, the U. S. Shipping Board, the U. S. Public Health Service, with various bureaux of the Department of the Interior, and with numerous state, municipal and private organizations.

Carnegie Institution of Washington, WASHINGTON (D.C.) (1925). (Founded 1902). — Purpose : encourage research and discovery. — **J. C. Merriam**, president; **E. Root**, chairman Board of Trustees, **W. Cameron Forbes**, secretary.

Laboratory for Plant Physiology (see **TUCSON**). — Department of Genetics (see **COLD SPRING HARBOR**). — Geophysical Laboratory, 2901 Upton Street, **WASHINGTON D. C. (1906)** : **A. L. Day**, Director. — Tortugas Laboratory (see **WASHINGTON**). — Department of Embryology (see **BALTIMORE**). — Nutrition laboratory (see **BOSTON**). — Department of Historical Research, 1140 Woodward Build., **WASHINGTON, D. C. (1903)** : **J. F. Jameson**, Director. — Department of Meridian Astronomy (see **ALBANY**). — Mount Wilson Observatory (see *Observatories*). — Department of Terrestrial Magnetism, 36 th. Street and Broad Branch Road, **WASHINGTON D. C. (1904)** : **L. A. Bauer**, Director. — Magnetic expeditions, laboratories, non-magnetic yacht *Carnegie*; continuous-magnetic and electric observations at the **WATHEROO** Magnetic Observatory in Western Australia (1919), and at the **HUANCAYO** Magnetic Observatory, Peru (1921). — Publications : *Annual reports, Researches of the Dpt. of Terr. Magn.*

Additional investigations : Special ecological researches of **F. E. Clements** with laboratories in Arizona and Colorado, of **T. B. Osborne** and **L. B. Mendel** (chemico-physical studies), of **T. H. Morgan**, **C. B. Bridges**, **A. H. Sturtevant** (constitution of the germ-plasm), **O. P. Hay** and **G. R. Wieland** (Paleontology), **E. A. Lowe** (Paleography), **S. G. Morley** and **Esther B. Van Deman** (Archeology), **G. Sarton** (History of Science). — *General publications* : 500 vols.

Department of Agriculture, WASHINGTON (D. C.) (1926). (Founded 1862). — Secretary : **Wm. M. Jardine**, Assistant Secretary : **Renick W. Dunlap**; Director of Scientific Work : **A. F. Woods**; Director of Regulatory work : **W. G. Campbell**; Director of Extension Work : **C. W. Warburton**; Director of Information : **N. A. Crawford**; Director of Personnel and Business Administration : **W. W. Stockberger**; Solicitor : **R. W. Williams**; Assistant to Secretary : **F. M. Russell**; Budget Officer : **W. A. Jump**; Chief Clerk : **R. M. Reese**. — *Chiefs* : Weather Bureau : **C. F. Marvin**; Animal Industry : **J. R. Mohler**; Plant Industry : **Wm. A. Taylor**; Forest Service : **W. B. Greeley**; Chemistry : **C. A. Browne**; Soils : **W. Whitney**; Entomology : **L. O. Howard**; Biological Survey : **E. W. Nelson**; Library : **Claribel R. Barnett**; Experiment Stations : **E. W. Allen**; Public Roads : **T. H. Mac Donald** Agricultural Economics : **L. S. Termey**, acting; Home Economics : **Louise Stanley**; Packers and Stockyards Administration : **J. T. Caine**; Grain Future Administration : **J. W. T. Duwel**; Insecticide and Fungicide Board : **J. K. Haywood**; Federal Horticultural Board : **C. L. Marlatt**; Fixed Nitrogen Research Laboratory : **F. G. Cottrell**. — The Weather Bureau maintains in the United States, West Indies, Alaska and Hawaii about 200 meteorological stations.

Department of Commerce, Bureau of Mines, WASHINGTON, D. C. (1926). — Founded 1910. — Director : **S. Turner**. — Conducts investigations with a view to improving health, safety and efficiency in the mineral industry. It studies mine hazards, trains miners in rescue and first-aid, investigates health and safety conditions in mines, explosives and equip-

ment used in mines, the prevention of waste in the production and use of coal, petroleum and natural gas. Collects statistics regarding mineral production and consumption, and studies economic problems in the mineral industries. It has 27 experiment stations and field offices, 11 mine rescue cars and 9 mine safety stations distributed throughout the country.

Department of Commerce, National Bureau of Standards, WASHINGTON (D. C.). (1925). (Founded 1901). — **G. K. Burgess**, Director; **F. C. Brown**, Assistant-Director. — Charged with development, construction, custody, and maintenance of reference and working standards and their intercomparison, improvement, and application in science, engineering, industry and commerce. Made up of nine scientific and technical divisions, as follows: Electricity, Weights and Measures, Heat and Power, Optics, Chemistry, Mechanics and Sound, Structural Engineering and Miscellaneous Materials, Metallurgy, Ceramics, Simplified Practice, Building and Housing. — *Publications*: Issues six series of publications, as follows: Scientific Papers, Technologic Papers, Circulars, Handbooks, Simplified Practice Recommendations and Miscellaneous Publications. — *Equipment*: Complete chemical and physical testing and research equipment for all classes of materials. Manufacturing processes are investigated and improvements in production methods suggested, by means of special research laboratories, provided with actual machinery. Problems of general importance to a whole industry are usually studied.

Department of the Interior Bureau of Mines, WASHINGTON, D. C. (1925). (Founded 1910). — **H. COLLECTION DES Grands Ecrivains de la France

Le but de cette collection — connue des lettrés du monde entier — peut tenir en quelques mots : établir l'édition critique définitive des œuvres de nos maîtres écrivains français. Un texte rigoureusement conforme au dernier état de l'œuvre revu par l'auteur, les variantes subies par ce texte d'une édition à l'autre, le classement méthodique et rationnel des éditions, les notes d'histoire nécessaires pour éclairer le texte : tous ces éléments font des éditions des « Grands Ecrivains de la France » les seules qui restent et fassent autorité.

LISTE D'ÉCHANGES

Les Savants inscrits sur cette Liste désirent échanger avec leurs Confrères les Mémoires originaux qu'ils ont publiés.

La désignation des sujets qui les intéresse précède leurs noms.

L'inscription dans cette liste est accordée gracieusement aux savants, professeurs ou non, qui en font la demande au Directeur de l'Index Generalis, 46, rue Jacob, Paris (VI^e).

Le Directeur désire que les adhésions à la liste d'échanges de la huitième édition de l'Index Generalis lui soient adressées le plus tôt possible. La liste de 1925 a été close le 1^{er} juillet 1926.

L'inscription peut être demandée : soit pour les sujets indiqués dans la liste qui suit, soit pour des sujets différents de ceux-ci ; le choix le plus large est laissé aux intéressés, mais l'inscription est limitée pour chacun à trois catégories.

Les Auteurs sont priés de n'envoyer à leurs collègues que les travaux présentant un réel intérêt et de les envoyer aussi au Directeur de l'Index Generalis.

Quelques personnes inscrites dans cette liste n'ont pas renouvelé leur inscription en 1927 : le non-renouvellement de l'inscription en 1927 entraînera la radiation.

TABLE ALPHABÉTIQUE

Nous avons pu, au cours de l'impression du volume, tenir compte d'un certain nombre d'épreuves révisées qui nous sont arrivées en retard; nous avons corrigé le texte relatif à quelques Universités ou grands Collèges, en nous reportant aux dites épreuves, mais nous n'avons pu corriger, pour ce qui les concerne, la table alphabétique ci-après.

Pour faciliter l'usage de la Table alphabétique générale.

Pour permettre de trouver rapidement dans une page les noms figurant dans la Table alphabétique, nous avons fait suivre le numéro de la page d'un nombre qui varie de (1) à (8). Ce nombre indique la partie de la page où on trouvera le nom. Il conviendra pour connaître l'ordre des divisions de se reporter au tableau ci-contre.

N. B. — Si un nom est suivi de 2 fois, 3 fois la même indication de page et de carré, c'est qu'il se trouve 2 fois, 3 fois, dans la même page et dans le même carré.
